

November 2014 Engineering Alumni Society Report

The core tenants of the EAS include:

- Fostering networking between the undergraduate, graduate, and PhD students and alumni
- Encouraging networking to connect Penn Engineering Alumni to one another
- Reinforcing the bond between Penn Engineering Alumni and the School of Engineering and Applied Science

To execute on these important goals, the EAS is organized into a dedicated 6 person executive leadership board, upwards of 8 Past Presidents, 12 Directors, and 6 Associate Directors who attend 9 monthly meetings on campus. Through the powerful support from the Engineering Development office and an extended group of engaged, globally diverse engineering alumni, the 17 board committees are able to produce and promote programming in support of these goals.

While it is still early in the academic year, the Engineering Alumni Society has been quite busy with annual planning and less formal events on campus. A brief summary of our activities plan is below:

Programming for Students

- Several members of the EAS supported the annual Engineering Career Awareness Day (ECAD) and fall recruiting efforts through their firms and as volunteers for the engineering mock interviews.
- The EAS is working with student organizations to support events tied to the student majors throughout the academic year.
- The EAS will continue to mentor undergraduate students. This relationship, formed early in the academic cycle, encourages students to leverage alumni as a resource and exposes them to the wide variety of career options available to Penn Engineers. As mentioned above, this has also been expanded to include a Second-year Externship program.
- Graduate students are on campus for a significantly more concentrated period of time. The brevity of their time on campus allows for fewer opportunities to interact. Therefore, the board is planning to partner with Alumni Relations to hold the 5th Annual Graduate/Alumni mixer in the spring.
- The EAS will again be hosting a panel event for students to learn about the current laws and practices around patents.
- Annually, the Senior Design presentation allows the EAS to recognize and award teams of the brightest SEAS students. Alumni are also invited to visit campus to serve as judges and witness the current research that is being championed at Penn.
- Membership in the EAS is free and automatically extended to all Penn Engineering graduates post-graduation. Once again, the EAS will issue a congratulatory note to the graduating students and encourage them to get involved.
- The graduate engineering student BBQ will be held in July 2015 for upwards of 400+ graduate and PhD level students.

Programming for Engineering Alumni

- The reach of EAS is most clearly quantified through a quick check on our extended membership base. In just the past year, the Linked In membership has once again grown to over 3250 members! EAS Facebook membership has also grown to over 350 members in the past year.
- A dedicated team continues to update & maintain the EAS website with photographs, video, and other content relevant to the alumni community.

Penn Engineering

November 2014 Engineering Alumni Society Report

- In order to stay connected with the latest happenings in the engineering space, the EAS invites university faculty and administrators to hold short lectures for the board following three of our meetings each year.
- The engineering school was proud to publicly dedicate the Krishna P. Singh Center for Nanotechnology on October 4th, 2013. Tours for this amazing new facility during Homecoming weekend area already overbooked.

Programming for Alumni & PENN

- On the 1st of November, the EAS will host a Homecoming Post Game reception. Based on existing registrations, an anticipated 100 - 125 alumni and guests will gather in the Levine Lobby to celebrate our anticipated victory.
- For the third year, Penn Engineering Alumni will be invited back to campus to sit in on a lecture prior to the November Board Meeting. We promise there will NOT be a test at the end of the lecture, but based on feedback from last year's class, the alumni will all leave wide-eyed and motivated by what is happening today at Penn.
- During Alumni weekend, the EAS gathers in the Engineering tent on Hill field to present the annual giving proceeds to President Amy Gutmann.
- Lastly, the D. Robert Yarnall Award presents an opportunity for the board to recognize alumni who have excelled in their chosen field and as an alumnus through their relationship with the university. The submissions for the prestigious D. Robert Yarnall Award have been accepted and are currently under evaluation. We look forward to awarding a distinguished alumnus with the award in the spring.

The 2013-2014 Executive EAS Board includes representation from SEAS classes from 1959 to 2007:

- President – Matt Quale, CBE
- Vice President – Stan Warchaizer, EE
- Vice President – Russ Miller, EE
- Vice President – Alan Schuktzm ME
- Secretary – Seville Mannickarottu, EE
- Treasurer – Jason Rifkin, GEN
